Panel Contractor	Apollo Projects
Panel(s)/Colour(s)	Walls: KS1000AWP (Architectural) <i>White / Silver</i>

Case Study

FIREsafe™ **FIBREfree** **ECOsafe** **AQUAsafe**

Fisher & Paykel, Auckland

When Fisher and Paykel came to replicate an existing building made from EPS panels, they instead chose to utilise Kingspan **Firesafe** PIR panels as these offered peace of mind to their insurers.

The panels are exposed in some areas and covered in others by a secondary frame and lining.

The panels are 100mm thick providing an R value of close to 5.

Kingspan reserve the right to amend product specifications without prior notice. The information, technical details and fixings advice are given in good faith but are intended as a guide only. For further information please contact Kingspan Insulated Panels
