Case Study

FIREsafe™ **FIBREfree** **ECOsafE** **AQUAsafe**

French Bakery, Christchurch

In any building where there are hot processes, choosing an appropriate insulated panel is important to give piece of mind to building owners and insurers.

Kingspan was chosen as it has a **Firesafe** PIR core with FM Approval which is the certification recognised by insurance companies.

The Architectural panels (Metallic Silver) provide a striking alternative to traditional coldstore panels.

Kingspan reserve the right to amend product specifications without prior notice. The information, technical details and fixings advice are given in good faith but are intended as a guide only. For further information please contact Kingspan Insulated Panels
